### **READ THIS SECTION CAREFULLY**

*Not all high school courses require the same materials. The general expectations are listed above. Once you know your course selections, refer to the required supplies for individual courses. In some cases you may have the same requirements for more than one of your classes. You need not purchase duplicate supplies such as colored pencils, calculators or graph paper if this is the case. Please note that these supplies do not include the cost of projects students will take home from elective courses.*

**ALL MATH CLASSES** – A scientific calculator is recommended (Cannot use TI Inspire model); ruler (with metric measures in addition to standard) Note that if we go into remote learning that students will need access to graph paper at home.

**FORMAL and INFORMAL GEOMETRY, ECON, & CONSUMER MATH** – A compass and protractor, headset with microphone

**ALGEBRA II, PRECALCULUS, CALCULUS and PHYSICS – Calculator Information** – Scientific calculator needed; graphing calculator may be used but is not required. (Some students may still prefer to have access to a graphing calculator as it will allow them to write formula related programs. If a graphing calculator is to be used, then a Texas Instruments model TI 84 is preferred.) Students taking Precalculus or Calculus for CWU credit need to note that the only calculator allowed as per CWU policy on the final exam is the Texas Instruments TI 30 – any version. Phones may *not* be used as a substitute calculator at any time.

**CWU DUAL CREDIT STUDENTS - Precalculus and Calculus** - are required to have a TI-83 or 84 graphing / programmable calculator.
